WHAT is

SELF DETERMINATION?

We realized we didn't know enough.

**So we need to know the CONCEPT if we are going
help others become Self Determined... RIGHT?**

NO-COST SELF DETERMINATION TRAINING AVAILABLE FOR INDIVIDUALS, FAMILIES, EDUCATORS, AND PROFESSIONALS!

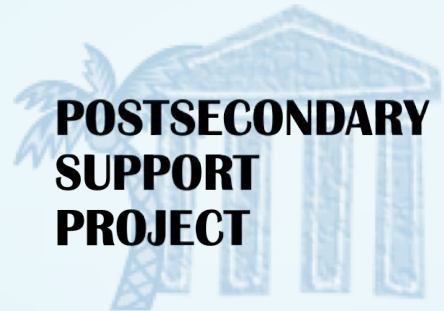

The concept of Self Determination has been a stated focus in the education and support professions for decades. Yet there are very few educational opportunities for individuals, families, and professionals to actually learn about Self Determination. The **Hawai'i Department of Health, Developmental Disabilities Division** has partnered with the **University of Hawai'i Center on Disability Studies** to provide no-cost Self Determination (SD) statewide training opportunities for educators, agency personnel, waiver providers, families, community members, and people with disabilities.

Our **"Keys to Self Determination"** training sessions are designed to increase knowledge, awareness, and recall of the components and skills of Self Determination. We hope that through this initiative, that our trainees will develop a "self determination lens" that will inform their personal outlooks and support provision activities. These sessions also offer useful tools to support individuals with ID/DD and other disabilities to envision, prepare for, and work to realize self determined visions for their lives. SD training opportunities are also available for students, parents, and others.

In-person and virtual training and professional development activities can be tailored to fit your audience and schedule and are available statewide. To learn more, or to schedule a training, please contact us at (808) 372-8220 or via email at cdspsp@hawaii.edu.
